## Got Waste? Reach to the Roadside Development and Compliance Unit for further assistance

### What we have to offer - Hazardous Material/Waste Field Support

- Field support in the areas of hazardous material, hazardous waste, and remediation (clean up)
- Site visits focusing on product substitution, recycling, workplace practices, and Notice of Violation (NOV) avoidance.
- Send us pictures of what you have, and we can assist you going forward.

To contact our Hazardous Waste Specialists:

- John Buhrmann (D1,4,7,8) / [john.buhrmann@nebraska.gov](mailto:john.buhrmann@nebraska.gov) / 479-4766
- Aaron Bedea (D2,3,5,6) / [aaron.bede@nebraska.gov](mailto:aaron.bede@nebraska.gov) / 479-4312

# NDOT Implements New Stormwater Inspection Software for 2025 Facility Runoff Control Plan (FRCP) Inspections

Nebraska DOT is utilizing new software called **SWPPPTrack** to inspect, report and manage stormwater compliance and other environmental commitments on construction projects and maintenance facilities across the state. This new software is replacing the ECODatabase Inspection System.

SWPPPTrack leverages new technology, to provide comprehensive solutions for managing stormwater runoff, safeguarding the environment, and meeting regulatory requirements. Highlights include:

1. **Mobile-Ready Solutions:** SWPPPTrack offers a user-friendly mobile app that streamlines compliance tasks. Field personnel can easily record inspections, track best management practice (BMP) maintenance, and report findings—all from their smartphones or tablets.
2. **Real-Time Data:** SWPPPTrack enables real-time data collection. Inspectors can capture photos, document observations, and sync information instantly. This enhances transparency and facilitates timely corrective actions.
3. **Efficiency and Accuracy:** SWPPPTrack reduces paperwork, minimize errors, and enhances efficiency.

## How to Download the 'SWPPPTrack DOT' Inspection App

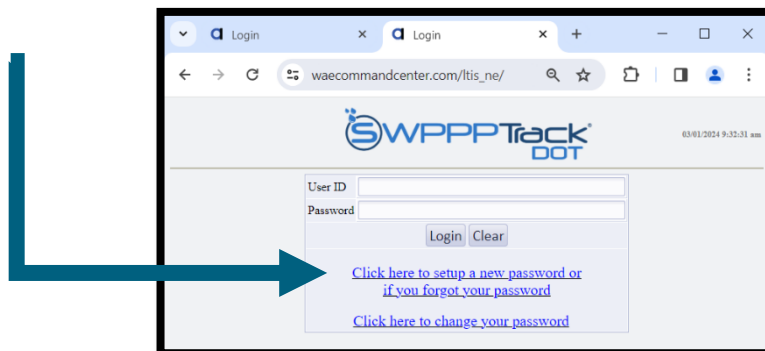

- For NDOT Apple (iOS) devices download from “Comp Portal App” on your device:

- For all other Devices download from Google Play Store or Apple App Store

## How to Login to the SWPPPTrack App and/or SWPPPTrack Web Portal:

- User ID = Email Address
- Password = Setup by accessing SWPPPTrack Web Portal at:
  - [https://waecommandcenter.com/ltis\\_ne/](https://waecommandcenter.com/ltis_ne/)

Continued on Page 3...

### For SWPPPTrack Service and Technical Support

- For help with system errors and other technical support:
  - Contact SWPPPTrack at 888-401-1993
- For general SWPPPTrack service-related requests:
  - You can submit a “Service Request” through the NDOT Service Portal or
  - Contact NDOT SWPPPTrack System Administrator:
    - Gabe Robertson ([gabe.robertson@nebraska.gov](mailto:gabe.robertson@nebraska.gov))

## NDEE Postcard Reminder – Annual TIER II Reporting

---

NDOT is required to submit Emergency and Hazardous Chemical Inventory Forms annually per federal regulation Superfund Amendments and Reauthorization Act (SARA) Title III: **Emergency Planning and Community Right-to-Know Act (EPCRA)**. Businesses are required to report the locations and quantities of chemicals stored on-site to state and local governments to help communities prepare to respond to chemical spills and similar emergencies. This reporting is required annually **from January 1 to March 1** and can be completed online by following this Online [NDEE Tier II System link](#) and selecting “Enter Tier II Form Submission System.”

### Postcard from NDEE

NDEE sends a reminder postcard (with facility identification numbers and passwords) to facilities subject to those regulations every January. The annual postcard from NDEE includes the necessary information to complete the online reporting. If you cannot find or do not receive this information, please contact the NDEE Tier II representative at (402) 471-2186 or contact Shane Sisel (NDOT).

#### FOR MORE INFORMATION

Contact Shane Sisel at (402) 479-4656 or [shane.sisel@nebraska.gov](mailto:shane.sisel@nebraska.gov)

## New Posters

NDOT provides spill prevention education through Standard Operating Procedures (SOPs), posters, trainings, and engagement. Below are updated posters that you will find at your facility. If you have not received updated posters, please reach out to Shane Sisel ([shane.sisel@nebraska.gov](mailto:shane.sisel@nebraska.gov)).

### Good Housekeeping & Pollution Prevention Poster

The new NDOT Good Housekeeping and Pollution Prevention poster highlights Best Management Practices that can be implemented at your facility. Sensitive areas such as vehicle and equipment areas, bulk storage containers, product and materials storage, and waste materials all have specific BMPs that, when implemented, can minimize potential pollutant runoff.

### Winter Weather Poster

NDOT Winter Weather Operations poster covers facility housekeeping, salt and brine storage and application, and how to manage yard snow melt. BMP recommendations such as washing trucks and equipment in designated areas, storing salts downslope, and plowing snow away from drainage ways can be found on the poster.

### SPCC Poster

Any facility that meets the threshold of have aboveground bulk oil storage capacity **greater than** 1,320-gallons or underground storage tanks **greater than** 42,000-gallons is required to have a Spill Prevention Control and Countermeasure Plan, or SPCC. This poster identifies BMPs to mitigate spills and how to act fast in a situation. Check with your facility supervisor if your facility has a SPCC plan and know where it is maintained.

**Roadside Development and Compliance (RDC) Unit Contacts:**

Ron Poe – RDC Unit Manager

402-479-4499

Gabe Robertson – SWPPPTrack and Stormwater Compliance

402-479-4685

Amber Ybarra – MS4 and Stormwater Compliance

402-479-3917

Blayne Renner – Stormwater Permitting

402-479-4839

Tony Ringenberg – Borrow and Waste Sites

402-479-4410

Carson Jones – Erosion Control Design (Districts 1,4,7,8)

402-479-3642

Brian Anderson – Erosion Control Design (Districts 2,3,5,6)

402-479-4538

Brian White – Erosion Control Design
