Emergency Notification and Reporting Procedures for Highway-Related Incidents

Injuries Involving NDOT Personnel and Others – Any incident that results in severe personal injury/fatality to an NDOT employee/contractor on a department project or severe personal injury/fatality to a private individual when an NDOT employee is involved must be reported to the State Operations Center (SOC) at **402-331-5993**. *(For contract personnel and accidents in work zones, follow additional guidelines as outlined in Section 404.03 of the Construction Manual).*

Hazardous Spills – Any hazardous spill must be reported to the State Operations Center (SOC) at **402-331-5993**, as soon as possible after discovery.

Road/Lane Closure or Restriction Reporting:

All incidents requiring roads or lanes to be closed or restricted shall be promptly entered into NDOT's on-line condition acquisition reporting system and promptly removed at incident conclusion by the State Operations Center (SOC). Incidents meeting the criteria as specified in Section 3 below shall be reported by phone to the SOC as soon as possible after discovery, as conditions change, and when resolution occurs. These procedures pertain to major highway or catastrophic incidents that affect the highway system in Nebraska. The Operations Division Manager or designee is responsible for notifying the Federal Highway Administration of incidents meeting the criteria in Section 3. The SOC is responsible for verifying all incident and event information before notification is made.

1. **Authorities:** FHWA Order 5181.1B dated May 10, 2018.
2. **Operations Division SOC Call Number:** Incidents meeting the criteria in Item 3 or condition acquisition reporting system problems should be reported to the SOC at 402-331-5993.
3. **Criteria for Reporting Incidents:** Significant highway-related incidents meeting one or more of the following criteria should be reported:
 - Any incident or event that will generate immediate national interest and/or media coverage
 - Incidents or events that create disruption to highway system operations for 8 hours or more. These incidents can include, but are not limited to:
 - Damage to, or closure of highways or highway infrastructure caused by an act of nature including, but not limited to, earthquakes, floods, tornados or wildfires. For winter weather only report closures to the Interstate Highway System;
 - Damage to, or closure of highways or highway infrastructure, caused by crashes, terrorist or criminal acts or unknown causes;
 - Evacuation conducted for any reason; or
 - Planned special events or constructions that requires an extended (greater than 8 hours) closure on the Interstate Highway System.
 - Other highway incidents that shall be reported regardless of the reason or duration of the disruption:
 - Crashes involving 6 or more fatalities;
 - Crashes involving 10 or more vehicles;
 - Commercial vehicle crashes resulting in 2 or more fatalities or receiving statewide media attention;
 - Highway fatalities directly related to a natural disaster;
 - School bus crashes resulting in serious injuries, fatalities, or statewide media attention;
 - Passenger bus crashes (including transit busses and private motorcoach operations) resulting in 2 or more fatalities. 5 or more serious injuries (requiring transport), or receiving statewide media attention; or
 - Crashes or other incidents involving significant damage to highway infrastructure.
 - Highway incidents resulting in the loss of life or serious injury of a prominent individual such as a Member of Congress, senior member of the Executive Branch, military official, diplomatic dignity, or other major public figure.
