

District 6

2023 Construction Projects Update

2023 GOALS

Maximize mobility on I-80/I-76.

- Utilize contract specifications on construction projects during peak travel months that require travel lane restrictions.
- Attend and participate in the District's TIM (Traffic Incident Management) efforts.
- Provide adequate resources during inclement weather events to minimize I-80 closures.

Communicate with local agencies within D6 on our construction and maintenance activities.

- Schedule and attend meetings with NE State Patrol to share current and upcoming project information. Support increased communication with front-line staff and troopers.
- Reach out to new community leadership within the District and provide key information points on District activities as it relates to their areas of responsibility.

Decrease the costs of construction and maintenance practices in the District.

- Continue to train and utilize MDSS for our winter event operations. Reduce the overall quantities of materials/personnel/equipment used during these events.
- Engage our industry partners to balance the competing interests that occur during construction projects.

Succession Planning

- Support the Construction Inspection Certification Program (CICP) Team.
- Use mentorship to expedite the learning curve of new supervisors within the District.
- Utilize the EDC for training for workforce development.

PROJECT INFORMATION	IMPROVEMENT	IMPACT
1 I-80 South STP-S56A(108), 61655	Mill, Resurf., Br.

2022 HIGHLIGHTS

- Distributed two letters to State Senators
- Distributed 26 construction project-related news releases
- Proactively contacted schools to make sure we had correct information. Created a document that mapped out the bus routes so that our superintendents could stay in contact on winter road conditions to keep kids in our district safe.
- Helping out in Cherry County and being flexible with snow removal.
- Having our first Safety Stand-Down day in many years.
- We had two snowplows named and put on awards at Hershey Public Schools.
- Quarterly recognition events with achievement awards and years of service.
- Increase of on-the-spot awards being handed out.
- Brad Miller got hit by a vehicle during a winter event and bought awareness to the dangers of our job.
- We have been keeping track of 511 cameras in our district daily and letting our electronics team know right away if they are not working so that they are getting fixed quickly.
- Toby Thomson, Carlos Campa, and Gary Brinker retirement.
- Sent Thomas Thornton to AASHTO Management Institute in Bellvue, WA.
- Send Sonny Scott and Art Kiger to APWA Western Snow & Ice Conf in Loveland, CO.
- Sent Cameron Craig to SD School of Mines Technology Career Fair in Rapid City, SD.
- Covid still a thing.
- Nine winter events.
- D6 employees participated in Pixel Bakery.
- UAS (drone) Training (Kitty & Lisa).
